## TRIP ITINERARY

We will leave the Backmore Vale and drive directly to the centre of London.

Explore one of London's most storied landmarks - the UNESCO listed Tower of London, the fortress in the middle of London with some pretty amazing views, but it's also home to the Crown Jewels and thousands of years of history (including some pretty gnarly medieval torture!)

You will be able to explore independently, with a self-led audio tour. The Tower of London has 950 years of history. Discover interesting facts from the history of the Tower of London. Visit every tower and find out what their secrets are. You will also learn more about the Beefeaters of the Tower, why they are called so, who they are and what they do.

We will then board the City Experiences Cruise for a trip on the Thames, which includes a memorable afternoon tea experience. You will enjoy your Afternoon Tea whilst gliding past London's iconic riverside attractions admiring Big Ben; take your pick from the sandwich selection on your way to the London Eye, and enjoy scones, clotted cream and jam as you cruise under Tower Bridge.
